MOROCCAN GERMANS GET SCANT COURTESY**GERMAN DIPLOMATIC CORPS AT TANGIER DEPORTED BY MOORS.**

By Associated Press.
BERLIN, Sept. 24.—The Wolf Imperial says it is reported from Tangier that the German chargé d'affaires at Tangier, that he and the members of his legation were handed their passports by the Moroccan government on August 24 and forcibly taken or bound the French cruiser Casablanca, which conveyed them to Port Said. The Wolf's press dispatch points out that this action is a breach of international law, since Tangier is the capital of the international zone in which the diplomatic representatives of the signatory powers of the Algeciras conference still exercise control. "This arbitrary act," says the Wolf's Bureau dispatch, "was possible only with the consent of England, in view of the location of Gibraltar."

AUSTRIAN TROOPS SELECT THEIR OWN BATTLE GROUND

By International News Service.
VIENNA, Sept. 24.—Austrian troops in Gallipoli have selected their battle ground to oppose the Russians now on the offensive. Heavy fighting along the line extending from the Taurus to Prenapoli.

PEACE NEGOTIATIONS ARE UNDER WAY

By International News Service.
MADEIRA, Sept. 24.—Negotiations between the United States and Spain aiming at the co-operation of these countries with possibly Italy in efforts to end the war are reported under way.

SENATOR NEWLANDS PASSES UP WINNEMUCCA

Newlands went through Winnemucca on a very fast run last night. It is wonderful what influence a trustee powers the only man that was ever worth anything to Nevada as a legislator has. But the trust was disappointed, the trust just flew by. By microscope a large number of the unlettered celebrities were noted. The bounties were out to salute their return said. The brass band though, was absent. But the song with calisthenics attendants was on deck to give the manageable entertainment. Neither wet, rain, snow nor storm would have caused interference with a night delegation to meet the white legislature who is it all for the west. The would-be calisthenics got no circulation. This trip into Nevada will make it positively known to the Democratic boss that he is going to get a first-class walkoff from Platt and that it will be recognized that Senator Platt is to succeed Senator Newlands—Winnemucca, Silver State.

If all the European contestants were as successful in battle as they are in manipulating the news and censoring it, they would do nothing but celebrate victories—St. Paul Pioneer Press.

Austria has been defeated in war sooner than any other country, and it seems to be receiving at the hands of the Serbs a generous dose of the same old medicine—Kansas City Journal.

NEVADA FARM STATISTICS

(From the last Federal Census Report.)

- There are 1,600 farms in Nevada.
- The approximate area of the state is 70,283,000 acres; 2,724,000 acres are in farms and 72,560,000 acres of land in farms are improved.
- The average size of a Nevada farm is 1,610 acres.
- The farms of this state represent a capital investment of \$20,200,000.
- The furnishers of this state are 11,700,000 worth of implements and other farm machinery.
- The value of the domestic animals, poultry and bees on the farms of this state is \$19,211,000.
- The average value of a Nevada farm is \$2,640.

Press Opinions**EDWARD DYNAMITERS**

Last night a cowardly attempt was made to destroy the plant of the Tonopah Bonanza with dynamite. This was not entirely successful but was the work of the enemies of society who were responsible for the death of W. W. Booth, proprietor of the Bonanza, a man who has the courage of his convictions and does not mince words in the conduct of his newspaper. For the reason he has made enemies, as has been done

PERSONAL**Comings and Goings of Local People and Others.****MORE IN W. W. LAWLESSNESS**

Mrs. CHARLES SHEAFF, wife of an infant child returned to her home in Miller this morning.

DAVID ASPLUND, of the Tonopah & Silverton railroad, is here looking after the interests of his company.

L. W. LOUIS, of Winchester, Nev., who was interested in the Goldfield and railroad, is in Tonopah looking after other interests.

A. W. BRUNNER, representing the Peters Corralito company, is registered at the Wigwam in advance of the gold tournament.

C. E. HOOVER, one of the stockholders in the Belmont Buckers, who has been here inspecting the property for the past week, left for home in Cleveland, O., this morning.

CHARLES E. JOHNSON and Mrs. J. W. Richmond came in last evening from Los Angeles in a racing auto registering 120 horse power. The party was accompanied by Eddie Abbott, a chauffeur.

The courage of this man was

rewarded with a bronze medal in the competition of six weeks ago at Tonopah that resulted in the shooting of a man in John Palmer, organizer of the L. W. W. in Tonopah—a crime for which Palmer is now serving sentence in the state penitentiary at Carson. It is the same kind of heroism that made itself apparent this year in the Atlantic to the Pacific.

SAK HUNLTET, the best shot in the world, has engaged rooms at the Wigwam for the week of the gun club shoot. Huntley never attends any first-class events and the fact that he is here prefigures the presence of other sportsmen.

By Associated Press.
PEKIN, Sept. 24.—A British detachment of 400 South Wales borderers and 400 Indian Sikhs have landed near Lao Shan, China, and it is expected the Anglo-Japanese attack on Tsing-Tau defenses will begin to-morrow.

Spouse Thomas gone home from St. Louis for North Tonopah strike duty on 5 a. m. and 2 p. m. round trip \$1.00.

CO-OWNERS' NOTICE.

To P. Salmon, his heirs and assigns: Pursuant to the provisions of section 2028 of the Internal Revenue Act of 1913 of the increased taxation of the United States, notice is hereby given to P. Salmon, defendant, owner of lots claim "Regal," of Round Mountain Mining district, Nevada, located in December 3, 1906, and to his heirs and assigns, that for the years 1910, 1911, 1912 and 1913 there was performed upon said lots the amount of \$20,000 of work necessary to hold said lots and that the proper portion of said act, if you fail to pay said amount in default for each of the said years, within the time allowed by law, the same will be cause for forfeiture to the undersigned co-owner.

CHARLES SHUFFY, Co-owner, First publication, Sept. 24, 1914. Last publication, January 1, 1915.

At the Wigwam this evening another interesting program will be shown which is sure to please all who see it. It consists of an Edison drama, "The Mystery of the Octagonal Room," a Seely comedy, "The Review," and a reprise Vingraph drama, "An Unknown Devil," in which a young girl is induced by her father to put the part of a modern Devil in her lover, the girl's father. It is the beat of a power corporation which is dividing the wages from the imagination of the workers. We know it is fighting the power company, he deserves as to the date of trial and finally meets your neighbor among his associates' apparent treachery, the ranchers, believing he has turned traitor, are about to kill him, when the girl with the aid of another neighbor secures a new trial and arrives on the scene in time to get him out of trouble. It is full of interest from start to finish.

Tomorrow, "The Perils of Pauline" and "Hearts Sing" will be shown. Saturday, "The Pathetic Family" News—adv.

California Leads In Production of Oil

California, first among the states west of the Mississippi river and fifth among all the states in the value of its mineral production, according to figures of the United States mining survey, has for the last few years ranked its claim as pre-eminence as a mineral producer on the output of petroleum. It is leading in oil production in all the other states, as Pennsylvania does in the production of coal. In the quantity of petroleum produced in 1912 California was credited with 10 per cent of the total output of petroleum in the United States, and 16.2 per cent in the value. Pennsylvania in 1912 contributed 48 per cent to the total quantity of oil produced and 51 per cent to the total value of the output. Prior to 1912 when petroleum took first place among the

mineral products of the state, value considered, gold was the chief mineral product of the state, and all through gold has fallen from first place in the mineral products of the California continues to hold all of the other states in the output of the yellow metal. Moreover, California was one of the few states in which gold production is an important factor that did not show decreased production in 1912.

The production of petroleum in 1912 was a little more than 9 per cent of the total mineral output of the state. The record for 1912 shows an increase in the quantity of crude oil produced over \$12,000,000 barrels—\$12,000,000 barrels in 1911.

The value increased somewhat more in proportion, from \$36,000,000 to \$46,750,000.

The production of gold increased from \$20,000 fine ounces, valued at \$12,720,000 in 1912 to \$26,700,000 fine ounces, valued at \$24,000,000 in 1912. Of the total gold production of the state about 50 per cent is derived from deep mines and about 50 per cent from placers. Of the output of mine gold about 80 per cent is obtained from California and the other 20 per cent is derived from copper and lead veins.

Third in importance among California's mineral industries is the manufacture of Portland cement, in which California now ranks third in importance among the states. The production in 1912 was \$3,654,200 barrels, a decrease of 50,000 barrels from 1911. The value increased, however, from \$10,250,000 to \$10,470,000.

Fourth in importance among the state's mineral industries and second among the metals is the mining and smelting of copper, of which the principal producing counties are Shasta and Calaveras, the former contributing about 50 per cent of the total and the latter between 25 and 30 per cent.

The copper is closely followed by zinc, in increasing the results of a world's championship series that trapshooters are trying to pick up the winners of the grand American. In trapshooting the prizes, both monetary and honorary, go as a rule to individuals rather than teams, and in reckoning the number of followers of the sport one counts the actual participants instead of the crowd in grandstand and bleachers. Despite a few tournaments most of the spectators are also competitors. The major meet was a gathering of trapshooters, and last year there were 1,000 trapshooters in practically every county in the state.

The quarry products, which consist chiefly of trap rock, granite and limestone, in the order named, were valued at \$4,712,000 in 1912, against \$3,812,000 in 1911. Of the total production trap rock, used chiefly for road making and railroad ballast, contributed something over 50 per cent.

The quarry products, which consist chiefly of trap rock, granite and limestone, in the order named, were valued at \$4,712,000 in 1912, against \$3,812,000 in 1911. Of the total production trap rock, used chiefly for road making and railroad ballast, contributed something over 50 per cent.

The importance which the sporting world today attaches to the grand American is due to the remarkable rapidity with which trapshooting has grown in popularity during its brief history of twenty-five years. Though it traces its origin back to the English pastime of pigeon-shooting, which was once a favorite amusement in the home and sporting resorts of the southern and midland counties, its modern development in America and its present form has been adopted in England and most of the continental countries. In the United States there are now about 5,000 trapshooting clubs, with an active membership of 120,000 in 1912, and according to the number of traps in the country, including those who get out on the firing line with considerable frequency during the season, but are not enrolled as club members, totals at least 250,000 and possibly 300,000.

As the figures show the sport has a large following and is entitled to rank high in this respect, among the ranks of baseball, football
